

## ABOUT US

---

There are so many positives in South Africa in spite of the violence and crime.

In an effort to contribute positively, Hutech Global designed a **domestic wallet website** as an initiative to contribute to the well-being and upliftment of employees in the domestic sector.

The Domestic Wallet has a two tier objective, i.e.

- ✔ To assist households to become and remain compliant as employer; and
- ✔ To uplift and ensure well-being of our domestic employees through a bouquet of financial products.

“Contribute to the well-being and upliftment of employees in the domestic sector.”
